Actuator Models for Customer's Use

## Help for Stereolithography (.stl) format

The models have been produced in Solid Edge format (version 12.00.05.02) and translated into STL format using the following export options:-

STL Export Options				×
<u>Conversion tolerance:</u>	0.05			OK
Tolerance <u>u</u> nit:	millimeter	•		Cancel
<u>S</u> urface plane angle:		45.00 °		<u>H</u> elp
Cutput file as				
Generate Log file				

If any further assistance is required, or files are required with export options modified, please contact <u>paul.exton@rotork.co.uk</u>
